Built Around How Institutions Actually Work

Academy360, a unit of Olfant, is a complete school and college management platform that brings admissions, attendance, examinations, and communication into a single, connected system — replacing scattered spreadsheets, paper registers and disconnected tools.

OUR MISSION

To help institutions save time, reduce manual errors, and build stronger communication between administrators, faculty, students and parents.

OUR VISION

A future where every educational institution, regardless of size, runs on a single, always-current digital platform instead of fragmented paper and spreadsheet systems.

WHY ACADEMY360

- ✓ A single, cloud-based home for daily institutional operations
- ✓ An interface that adapts to your institution, not the other way around
- ✓ Continuous feature updates included at no extra cost
- ✓ Round-the-clock support so your team is never stuck
